AS Senate Reform Task Force Charge and Charter

Background & Context:

During this summer, Glen brought up the idea of having a committee that would be dedicated to helping him during Fall and Winter quarter to improve the Senate Reform process. His hope was to be able to encourage more engagement, perspectives, outreach, and feedback from students as the process progressed. There was a lot of conversation to whether this should be an informal group that met and talked to Glen or if it should be a formal committee. It was decided in a Board work session to create a work group (later referred to as a task force) that would be a hybrid between a full committee and an informal group. The goal of this task force with a charge and charter would be to maximize the equity, transparency, and accountability of the Senate Reform process as a whole as well as the group itself. The task force will not have any voting or decision making power or authority in the Senate Reform process. It is requested that the AS Board of Directors pass this Charge and Charter to ensure legitimacy to the group and to have student at large applicants follow normal committee procedures if they wish to participate in the task force.

Summary of Proposal

This Charge and Charter differs from formal committee Charges and Charters. This document does not have some of the more formal sections. The purpose is to emphasize that this task force does not have any voting or decision making power and authority over the Senate Reform process. Purposes of the committee are listed in the charge. As for membership, it was decided to have it list "AS Board Member" so that there is some flexibility on who attends meetings such that it might be more relevant for the VP for Academic Affairs to attend some of them and the VP for Governmental Affairs to attend others. We are not sure if we should have Assistant Director of Student Activities there or maybe just there as an advisor as needed. This point should be considered and discussed. The meeting section was also revised to make less formal yet to still ensure accountability. Timeline was also added to convey the time sensitivity and time frame that the Senate Reform Staff person has with this process.

Rationale:

The purpose of passing this Charge and Charter is to ensure legitimacy, equity, transparency, and accountability to the group and Senate Reform process as a whole.
