Background & Context

When the fund was passed last year, the board failed to state an actual amount in the fund. There were conversations that caused some confusion over the actual amount so this is to clarify the amount.

Summary of Proposal

The Large Event Opportunity Fund helps fund large events (Over \$500 and over 100 attendees) that our offices could normally not afford. The idea is if an office has an opportunity they did not see coming open up, they can reach into this fund to help pay for it. This proposal is to approve \$65,000 for this purpose.

Fiscal Impacts

Nothing different than what is already being impacted (65,000 from Reserves a year).

Rationale

This amount allows more groups to have an opportunity to use this fund. It opens up the possibilities for our campus and gives Associated Students more possibilities for programming.
