

## Voter Access

We believe that everyone should have access to voting. The current laws make it difficult for students to register to vote or update their mailing address to their new address. By making registering to vote more accessibility it will increase the amount of students and young people voting in elections.

- Extend the voter registration deadline until 11 days prior to the election and in-person on the day of the election.
- Allow 16-17 year olds to pre-register to vote as part of the Motor Voter system currently in place. This would allow them to register to vote when they are at the Department of Licensing getting their license or renewing it.
