IV. INFORMATION ITEMS - Guests*

A. Tuition Increase Update

Huskey talked about financial aid at Western and how that was funded. There was an increase in the State Need Grant and it would continue to increase for the next three years. Over the last three years the average amount of debt a Western student graduates with had been decreasing. Western had the lowest debt default rate of graduates in the state. Rutledge asked about the amount of fees graduates pay. Huskey said that it was more than undergraduate but it was cheaper than most other places in the state. Meza asked how much the nonresident tuition was going to increase. Huskey said that they didn’t know off the top of their head but will provide that information in the future.

V. ACTION ITEMS - Guests*

A. AS Budget Committee Recommendations

LaVallee said that there have been two weeks of discussion and wanted any final questions. LaVallee clarified which changes should be included in the motion. Chhabra said that they don’t feel comfortable passing this because it removed the New York Times on campus and they don’t feel like there has been sufficient discussion and input from the student body. Alexander said that this same discussion had been had for the last three years, it always gets suggested and the
Board removes it. He said they could remove the New York Times grant from the budget and that would force a continued discussion, at a later date someone could propose a grant to continue it. Eider said that they were meeting with Steve Vanderstaay the following week and could get input. Yanzon argued that the Board should pass this budget so that a conversation could be started. Chhabra said they didn’t think the people who felt strongly about this item were in this conversation. Gordon asked that the Board agree they will do the necessary work to get the AS Budget Committee Recommendations passed the next week. The Board agreed to table the item until the following week.

A. Personnel Office Assessment Recommendations
Nelson went through the recommendation. The Personnel Office needed a cabinet that locked, and wanted to address concerns about training. The Personnel Office wanted a larger budget for food at training to have more gluten free and vegan options. They also wanted new equipment such as a new phone. The fourth recommendation was to conduct a thorough evaluation of the position classification and equity in pay levels across the AS. The fifth was to develop learning outcomes for training so that they were more focused. Hayden said that it had been a goal for a long time to revamp the training and have a more focused system and better assessments.

B. AS Review Website Proposal
This item was discussed second because there was a guest present. Bates explained this proposal would add functionality to the AS Review and allow them to reach more students. Chhabra noted that the current AS website was pretty shabby and they didn’t want to set the precedent that other offices should get their own websites. Bates said that this was a stop-gap measure until the AS website was up and running. Rutledge asked about the timeline for the AS website change. Alexander said that they were currently in the process of hiring the website designer for next year. Chhabra recommended the Board approve this next week with the stipulation that it was temporary. Hayden suggested the Board think about which domain to use and what those mean.

C. Sustainability, Equity and Justice Charge and Charter
Gordon said that the new Charge and Charter reflected the membership and name changes.

D. Sustainability, Equity and Justice Rules of Operations
Gordon ran through the changes. A lot of edits surrounded changing the way people look at
